# Rig Equipment and Parts for Onshore and Offshore Applications

Innova supplies capital equipment, parts, components and instrumentation for drilling and production systems, from the US Gulf of Mexico to Brazil.

Specialized in the provision of OEM & non-OEM parts for onshore and offshore facilities, Innova is dedicated and committed to timely responses, focusing on the supply of equipment, spare parts and services.

Innova also consolidates, dispatches and delivers parts and equipment from its Houston warehouse facility to freight forwarders in the US or directly to the client's base in Brazil.

## Hoisting and Rotating Systems

- Top Drive: washpipes, disc brakes, bearings (thrust/cylindrical/spherical), seal kits, service loops, O-rings and seals in general and other Top Drive parts;
- Kelly and IBOP Valve: spare valves, parts and repair kits;
- Drawworks: main shaft, V-belts, sprockets and strand chains, rollers, bushings, brake parts;
- Rotary Table: ring gear, pinion gear, drive shaft, seal kit, upper and lower bearing races, master bushing and others Rotary Table.

## High and Low Pressure Mud Systems

- Mud Pump: fluid end consumables, suction modules, pulsation dampners, diaphragms, liners, pistons, pinion shafts, crossheads, bearings, seal kits and other consumables covering all major brands.
- Mud Cleaning Equipment: shale shaker screens, other consumables and parts.

## Pressure Control and Blowout Prevention

- BOP Stacks: flanges, bonnets, metal gaskets, operating pistons, piston rams, ram assemblies, packers, o-rings and seal kits, annular packing units, repair kits and other BOP, Annular and Connector parts;
- Choke and Kill Valves: gate valves in general, spare parts, repair kits, ring gaskets and other high pressure items.
